PERFECT PINT
THE PERFECT PINT PHILOSOPHY
Dense, creamy, non-melty texture.
Must remain scoopable for days.
No single universal base works.
Every ingredient demands unique balancing.

0.5% to 1.3% is magic!
<Chef_Blocky>
BIOME 1: VANILLA DYNAMICS
Flavor relies on subtle synergy.
0.5% to 1.34% total weight.
Pairs with sweet, white chocolate.
Boost with real bean powder.

<Chef_Blocky>
BIOME 2: CHOCOLATE INTENSITY
Use 11% or 21% cocoa.
Total chocolate: 3.5% to 13.1%.
Always bloom cocoa in heat.
Dark chocolate requires fat balancing.

THE PHYSICS ENGINE
FPDF/PAC Target: 20 to 30
MSNF (Milk Solids): 7-11%
Protein Ratio: 12% to 20%
Optimize using spreadsheet calculators.

BOSS FIGHT: ICE CRYSTALS
High moisture ruins the texture.
Freezes hard as a rock.
Ice crystals destroy smooth mouthfeel.
Melts way too fast unassisted.

GUMS
POWER-UPS: STABILIZERS
Use Tylose (CMC) and Guar.
Xanthan gum stops fast melting.
Glycerin softens the frozen base.
GMS emulsifies water and fat.

Ethanol PAC is 7.4!
MECHANIC: BOOZY CRYOPROTECTANTS
Alcohol drastically lowers freezing points.
Acts as powerful softening agent.
Max 200g per 1kg base.
Vodka softens without changing flavor.

ULTIMATE BUILD:
DARK TEMPTATION
Intense Rum-Raisin Pecan Chocolate.
RUM
13.1% total chocolate weight.
Cocoa bloomed in hot coffee.
Rum acts as cryoprotectant.

LEVEL COMPLETE: LOOT SECURED
Respect the FPDF math.
Bloom cocoa for maximum intensity.
Fruit is the base.
Use alcohol to control texture.
